

Comments related to LPFM. I understand that my station, K-LOVE, may be negatively affected by rulings expanding LPFM service. Personally I know dozens of people who listen to this station and its loss would be detrimental to our community. In our quest to provide more moral fiber to our community and our nation, it is imperative that stations such as K-LOVE be allowed to retain their current broadcasting status. We live in a broadcast area covering nearly 500,000 people and the loss of this station to even 10% of our community would be huge and greatly missed. Thank you for your consideration of these comments.
